BSE Investment Awareness Programme

Date : 18/8/2020

No of participants attended: 37

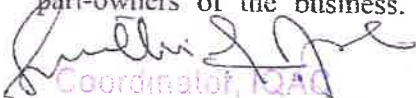

Objectives:

- Identify Your Investment Requirements
- Determine Your Investment Strategy
- Assess Points of Entry and Exit
- Executing Share Market Investments

Outcome of the Seminar: The stock market allows you to invest in shares to earn regular income in the form of dividends. Companies pay dividends to their shareholders every year out of the profits. You can get these dividends in the form of cash, securities, and more share units. The resource person Ms. Marina Jose Kanjikal conducted this online programme on zoom meeting and our students were given good insight about Investor awareness.

Description: Some investors purchase shares and hold on to these over different time horizons. The share market may be subject to risks, but the right shares will see price appreciation over time. Thus, investors can reap great benefits over the long term. When people buy company shares, they become shareholders of the company. This makes them part-owners of the business. In return, some companies pay out regular dividends to

shareholders out of their profits. Thus, many investors look for investment opportunities that bring a regular source of income in the form of dividends.

Feedback of the seminar: The participants were able to understand various risks and benefits involved in financial markets and got satisfactory solutions for their queries by the resource person. Our students opined that they would like to attend more such programmes in the future.

Coping Up With Exam Stress/Pressure

Date: 4/9/2020

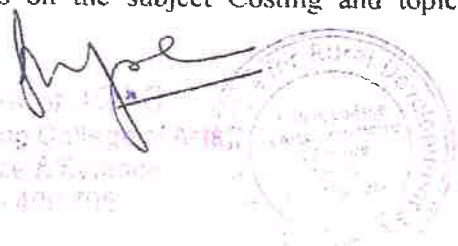

No of participants attended: 46

Objectives

- To equip the learners to face the exam without stress
- To help students to prepare effectively for facing the exams
- Assist the exam aspirants to plan and prepare for their final year examinations

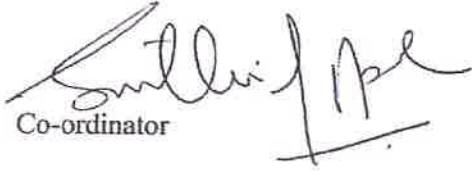

Outcome of the Seminar: Exams can make even the best students delete sleep and healthy habits from their lives. Exam time has never been easy. The sensation of a knot in your stomach added to the pressure from parents and peers can all feel overwhelming. While some say a little stress and nervousness is required to keep up the pressure to study for exams, constant stress and anxiety can lead to some unpleasant situations. Hence, it is important to stay calm, composed and to achieve desired results in a fiercely competitive environment.

Description: One should remember to set realistic targets not to criticize yourself if you miss a few. Making a list of your achievements at the end of every day, even if they are small ones can help tremendously to keep those motivation levels up. This webinar on 'How to cope up with Exam Pressure' was conducted by the resource person Mr. Abhishek Sood for TYBAF students on the subject Costing and topic was Standard costing and Variance Analysis.

1. To create awareness about women health issues.
2. To create awareness about "Menstrual Health & for Women".

Menstruation is a natural part of the reproductive cycle. However, in most parts of the world, it remains a taboo and is rarely talked about.

Cultural practices and taboos around menstruation negatively impact the lives of women and girls, and reinforce gender inequities and exclusion. Moreover, studies have proved a direct link between poor menstrual hygiene and urinary or reproductive tract infections and other illnesses.

Taxes generally contribute to the gross domestic product (GDP) of a country. Because of this contribution, taxes help spur economic growth which in turn has a ripple effect on the country's economy; raising the standard of living, increasing job creation, etc.

Outcome of the Seminar

The seminar on Income tax awareness in Ty students was conducted by the resource person Mr. Shyam B. Yadav from IT Department. This session concluded that there is a positive effect between taxation knowledge and level of understanding toward tax compliance. It means that an increase in tax knowledge and tax understanding level can lead to an increase of tax compliance level.

Feedback of the seminar

Taxation knowledge is necessary to increase public awareness especially in areas concerning taxation laws. Students greatly benefitted though this session.

Learn and Earn Programme

Date: 25/07/2019

No of students: 62

Venue: 401

Objectives - LEARN AND EARN Programme is an initiative that bridges the gap between the industry and the youth of India by developing a steady pool of trained manpower. At the end of this programme, students might get an opportunity to turn their training into a full-time job or explore other opportunities in different companies.

Outcome of the Seminar

Students were given an insight that earn while learn programme provides opportunities to the students to earn while they are learning through part-time jobs. Instead of going for regular studies of graduation and post-graduation, students prefer to go in for short term professional courses so that they start earning at a young age.

This helps the students to gain first-hand experience of the corporate world and thereby develop their self-confidence and personality. Accordingly, the students were encouraged to take up vocational training or part-time jobs after completing their regular classes or during holidays which would enhance their rating at the time of final placements.

Feedback of the Seminar

The Students were happy with the seminar. They Understood the Value of part time jobs and learn while you Earn concept.

10th Batch 10th apply before 15 Aug 19

Dear Friend,

NIRMAN is a youth educational process started by Dr. Abhay and Rani Bang in 2006. NIRMAN aims to identify, nurture and organize youth who are willing to use their education/ knowledge/ professional skills to solve real life social problems. NIRMAN sensitizes and guides young changemakers to lead a meaningful and purposeful life.

As a part of this educational process, a series of camps have been designed. These camps are organized at SEARCH campus in Gadchiroli. Youth get to learn about self, society, environment, societal problems, different approaches to tackle those along with discussions with role models and fellow youth changemakers. The process facilitates their conviction and clarity about contributing to social problem-solving.

till 2019, 9 batches of NIRMAN are already out and more than 1200 youth, across Maharashtra from various educational backgrounds, are connected with NIRMAN. Out of which, more than 350 youth are working full time in the social sector, undertaking a specific burning social issue.

The 10th batch of NIRMAN will be starting in January 2020 and the last date to apply is 15th August 2019.

We are inviting applications for the same till 15th August.

**SESSION ON MATHEMATICAL ANXIETY IN UNDERGRAD
STUDENTS**

Date: 12/12/2019

No of student : 86

Venue : Room No. 401

Objective :

Mathematical anxiety, also known as math phobia, is anxiety about one's ability to do mathematics. It is a phenomenon that is often considered when examining students' problems in mathematics.

Outcome of the Seminar :-The impact of mathematics anxiety on mathematics performance has been studied in session. It was analysed that an individual with math anxiety does not necessarily lack ability in mathematics, rather, they cannot perform to their full potential due to the interfering symptoms of their anxiety. Math anxiety manifests itself in a variety of ways, including physical, psychological, and behavioral symptoms that can all disrupt a student's mathematical performance. The strong negative correlation between high math anxiety and low achievement is often thought to be due to the impact of math anxiety on working memory. Working memory has a limited capacity, and when solving mathematical problems, a large portion of this capacity is dedicated to problem solving. However, in individuals with math anxiety, much of this space is taken up by anxious thoughts, thus compromising the individual's ability to perform.

Feedback of the Seminar

The Students were happy with the seminar.

PERSONALITY DEVELOPMENT SESSION

Date: 09/2/2019

No of student : 49

A personality development workshop was conducted by Jeevan Mantra for the students on 9/2/2019.

Apart from our communication skills, our personality also influences many other areas of our lives like our time management skills, team management skills, decision making skills, etc. Therefore, it's important that we invest time in Personality development training programs which can give us deeper insights into our personalities and open the doors for making appropriate changes.

Factors like our attitude, motivation, fears and complexes which directly and indirectly affect our lives all form our inner world. And the fact is; not everyone is born with a positive attitude, good self-esteem and confident personality. But they are surely areas that can be worked upon and enhanced.

Main objectives of the workshop:

Identifying areas that we need to work on to become our best self. Improving our self-esteem and confidence levels and giving a more positive outlook towards life. Creating a good and lasting impression on others.

Some of the topics which were covered were :

- Communication Skills (Verbal and Non Verbal)
- Body Language & Etiquette
- Time Management Strategies
- Goal Setting
- Develop Confidence
- Presentation Skills
- How to handle criticism
- Leadership Skills

An overview of above topics was discussed in the workshop.

Outcome:

Most importantly, personality development trainings also give us an opportunity to work on and change our inner landscape. This was indeed the push that the soon to be graduates required and it also made them realise that getting into the top college in any field is not going to be a cake walk, as it requires persistent hard work and dedication.

Feedback:

The participants were very eager to know various skills as explained by the resource person. Many students showed interest to participate in such workshops and programs in future.

SEMINAR ON PSYCHOMETRIC TEST FOR EMPLOYABILITY

Date: 19/12/2016

No of student : 48

Venue : G2

Objective: Graduate psychometric tests help to identify your skills, knowledge and personality. They're often used during the preliminary screening stage, or as part of an assessment centre. They're objective, convenient and strong indicators of job performance - making them very popular with large graduate recruiters

Outcome

The resource person Mrs. Jenny P from Training Point (Edusharp) was able to communicate and connect with BCOM and BAF students effectively. Many local and international companies in both the private and public sector now rely on pre-employment tests, such as aptitude and personality tests, as the most effective method to measure your 'fit', or match, for a position you apply for. These tests tell employers what they need to know, not just what you want to share with them. Ultimately, the resource person explained their aim is to increase the fairness of these pre-employment tests and to ensure that the participants are given a fair go and an equal opportunity when doing them. The company has prepared solutions for the pre-employment tests are industry and job-level specific and have preparation solutions for pre-employment tests.,

Feedback: The participants were very eager to know various employment opportunities as explained by the resource person. Many students showed interest to get enrolled for the said course and participate in such workshops and programs in future.
