# PREFACE

It gives us great pleasure to present to the student community the revised syllabus in a very comprehensive and lucid manner and enabling the students to know the subject to the point. Having been associated with the BMS Programme right from the beginning we have realized the need for the simplified approach to the understanding of law. For the students of BMS Programme semester II in Industrial Laws should provide an insight of various beneficial social legislative measures for the building up of the good industry force. We are confident that this book will enable the students to understand the subject and act upon them accordingly. The present book is an effort made by the authors to present the case study and legal interpretation in a very lucid manner. At the end of each chapter we have included self Study to enable the student to solve and revise during examination as suggestive measures. The book offers a combination of proper presentations and methods to remember. The book is, therefore, a complete, comprehensive & consisting of all latest amendments for the students. Student comprehensively going through the book can expect success in the examination.

We request all the readers including professor and students to give their valuable feedback which will be of great help to us. The readers may mail their feedback to [adv.sumathigopal@gmail.com](mailto:adv.sumathigopal@gmail.com).

**Best Wishes**
